Introduction

It is a pleasure for me to be able to offer this reference guide for the Fashion Royalty doll collector. I designed the following format because this is an ongoing series, where the updates will be available at <http://www.dollsinfo.com> . At the end of each year of production two new booklets will be issued which you can incorporate at the end of the old one without doing any modifications, except changing the Index & Checklist pages which don't have page numbers; thus you can incorporate them at the beginning or at the end of the guide. The Checklist will include the reference number, name, collection, number of items produced, original retail price, and a small blank space for your notes.

There are two sections in the guide:

- Common Section: reviews the different body sculpts made, head markings, skin tones, packaging, sketch and story cards, certificates of authenticity (COA). And also details common items among the dolls, such as stands, shoe boxes, hand tags, packaging. These will not be listed in the contents checklist of each individual item. When confirming if your doll, fashion or accessory is complete, please remember to also check this section.
- Main Section - subdivided by years: there is mini-index of each collection with the picture, name and page of the item; the pages following feature one doll/fashion/accessory per page with the item's basic information (serial number, retail price, edition size, stain warnings, etc.), photographs (NRFB, face, fashion and accessory's close-ups), and content's checklist.

Finally, I would like to thank Integrity Toys for allowing me to use their official pictures and all the collectors that contributed to this guide by answering questions and providing pictures, specially the Pink Parlor and The W Club Board Members for always being there! A would like to give a special thanks to Valerie Hanley, a friend collector and partner in crime. She allowed me to photograph part of her collection so I could bring you this detailed guide.
